A record of all children 18 years of age or younger who receive VFC program immunizations must be kept in the health care provider's office. The record may be completed by the parent, guardian, individual of record, or by the health care provider. This same record will satisfy the requirements for all subsequent vaccinations, as long as the child's eligibility status has not changed. While verification of responses is not required, it is necessary to retain this or a similar record for each child receiving vaccine.

* Underinsured children must be vaccinated at a FQHC or RHC.
